(St 1/4ck) 18-sound 35,6mm Horn XR1464C

Artikelnummer: 18s-XR1464C

(St 1/4ck) 18-sound 35,6mm Horn XR1464C

Hersteller: 18Sound

1,4"; Hochtonhorn aus Composit Material, Abstrahlwinkel 60°; horizontal x 40°; vertikal, empf. Einsatz ab 800Hz, Abm. B270mm x H270mm x T180mm, durch die quadratische Bauform drehbar. Gewicht 1,4kg. Ideales Horn für ND1460 und ND1480

- 1.4 inch throat entry
- High damping composite structure
- Uniform on-axis and off-axis frequency response
- 60°; x 40°; horizontal and vertical constant coverage
- Very low distortion at high sound pressure
- Optimized weight thanks to composite material

The XR1464C is a 1.4 inch throat entry constant directivity horn. The horn has been developed to reach optimum performances when it will coupled with 1.4 inch exit Eighteen Sound high frequency compression drivers.

All XR series horns have been designed in order to reach smooth driver frequency response, to maintain constant coverage and directivity and eliminating the midrange narrowing and high frequency beaming problems common of many similar horns on the market.

The XR1464C maintains nominal 60°; Horizontal x 40°; Vertical pattern control. It provides consistent on-axis and off-axis frequency response from 1,2kHz to 16kHz in both horizontal and vertical planes. Horn directivity is constant down to 1,2kHz
